

Facilitate: Leading for Learning

Facilitate: Leading for Learning is a foundational development opportunity for enhancing skills for individual and organisational learning and building collective responses to current and emerging challenges.

Effective learning organisations are quicker in assessing challenges, creating opportunities and overcoming setbacks. Central to the growth of learning organisations is the role of leaders in facilitating and creating meaningful conversations which encourage collective engagement, listening and learning.

Facilitate: Leading for Learning is designed for leaders who inspire others to learn their way through unknown and unusual complex environments, for those keen to inspire a new cadre of recruits to rethink their expectations of policing and for executives keen to encourage the re-imagination of policing to find new ways to create better public safety.
